

Ownership Structure

The non-profit unlimited company INNONET was founded in the year 1997 to develop and build our Centre infrastructure with the aid of the PHARE CBC program and co-financing of the Hungarian government.

Founders of INNONET were:

- Kisalföld Foundation for Enterprise Promotion
- International Industrial Park Győr Ltd.
- Chamber of Commerce and Industry for Győr-Moson-Sopron County
- City of Győr
- Győr-Moson-Sopron County
- Universitas Győr Foundation
- Hungarian Association for Innovation

By the year 2008 development of new projects (especially that of TECHNONET) showed that a smaller, more concentrated ownership-mix would offer an advantage while executing INNONET's mission. Thus three of the original founders left and sold their rights to the remaining owners.

Current owners of INNONET are:

- City of Győr (vote majority)
- Chamber of Commerce and Industry for Győr-Moson-Sopron County
- Universitas Győr Foundation
- Hungarian Association for Innovation
